EXPERIENCE

Software Developer Intern

Jul 2025 – Nov 2025

Robotic Marketer (Macquarie PACE Program)

Sydney, NSW

- Built a full-stack project management app (Django + React) on a 4-person team, adopted as a client-facing product offering for 10,000+ clients
- Designed MongoDB schemas for dynamic project data, tasks, comments, and user assignments, achieving sub-100ms API response times
- Automated transactional email notifications via SendGrid, handling ~1,000 emails/day triggered on mentions and project updates
- Integrated OpenAI Large Language Model (LLM) for content generation and in-app chatbot functionality

PROJECTS

Sunsets | React, Hono, Postgres + PostGIS, TFjs, MapLibre GL JS

Live: <https://sunsets-on-a-map.com> · GitHub: <https://github.com/up-the-hill/sunsets-on-a-map>

- Full-stack web app for mapping sunset observations — users can search, view, and contribute sightings
- Interactive map UI with React 19, MapLibre GL JS, and Stadia Maps for location discovery
- Node.js/Hono backend with Drizzle ORM and PostgreSQL + PostGIS for geospatial querying
- Deployed TensorFlow.js on-server for sunset image classification; uploads stored in AWS S3
- Containerized with Docker, served behind Nginx with SSL via Let's Encrypt

Blackout | JavaScript (browser extension)

Chrome: <https://chromewebstore.google.com/detail/ffcdlpjolgglihiapammmdhbdogcgjbki> · Firefox: <https://addons.mozilla.org/en-US/firefox/addon/blackout-poetry/> · GitHub: <https://github.com/up-the-hill/blackout>

- Browser extension for creating blackout poetry on any web page; published to Chrome Web Store and Firefox Add-ons
- Injects HTML and CSS via content scripts to apply blackout effects directly onto live page DOM
- Maintained cross-browser codebase targeting both Chrome Manifest V3 and Firefox WebExtensions APIs

arch-update | Bash (open source contribution)

GitHub: <https://github.com/Antiz96/arch-update/pull/608>, <https://github.com/Antiz96/arch-update/pull/617>

- Merged PR adding version diff highlighting and column alignment to the pending update list (608, shipped in v3.20.0), and fixes for the feature (617, shipped in v3.20.2)

Daily Art Gallery | TypeScript, Preact, Vite

Live: <https://daily-art-gallery.vercel.app> · GitHub: <https://github.com/up-the-hill/daily-art-gallery>

- Web app surfacing a new artwork daily from the Art Institute of Chicago's public API
- Deterministic daily selection via a seeded PRNG — same artwork for all users on a given day without a backend
